After speaking at the Hudson's Hope Input Session, the Counsel to the Commission (I forget his name) approached me about a report that I had referred to in my 5 min speech. He suggested I submit the report to the Commission for their review.

It is titled: 'North Peace Horticulture Business Case and Marketing Strategy'. The link is:

This is only the 1st step in a much larger plan to develop a sustainable economy for the Valley, and specifically the area to be flooded by the Site C dam.

Please accept this submission as an addition to my 5 min presentation.

Thank you,

Guy Armitage
